

Core Criteria

Message Alignment

Must support the campaign theme, copy, and creative direction.

Theme Alignment

Must fit one of the designated image themes

Visual Feel

Must feel luxurious, inviting, warm, and high-value.

Technical Guidelines

Color Palette

Align with brand colors. Avoid neons, vibrant or oversaturated tones. Colors should feel related and familial.

Composition

Ensure adequate negative space for copy, logo and/or lockup. Retouch if necessary to extend backgrounds, remove distractions, blur, etc for legibility.

Image Treatments

Use subtle gradients (leveraging brand colors like clay and limestone) to improve legibility and warmth. Avoid full black-to-zero gradients.
Edit image settings to achieve desired results, individual images may require unique editing.
