

Capitalization and punctuation

- Sentence case throughout — Signals modern, accessible, not corporate-formal
- Title case reserved for data viz, tables, reports — Creates visual hierarchy
- No periods in headlines (unless multiple sentences) — Keeps energy forward
- "And" not "&" wherever space allows — Reads more humanized, less corporate
- Oxford commas in lists — Clarity wins over style
- Em dashes (—) with spaces for emphasis — Reads more sophisticated
- En dashes (–) without spaces for number ranges — 2024–2026, not hyphen
- Hanging punctuation for inline quotes, numbered list, and bullet lists
- Numeric abbreviations: T, B, M, k — Clean, modern (not "Trillion," "Billion," etc.)
