

Acccent Color Hues

Accent colors are used sparingly to highlight key elements and specific negative and highlight values in charting.

Pomegranate 500 / CE3657

Pomegranate delivers a vibrant burst of energy, reserved for moments that require urgency, emotion, or bold attention. We reserve usage of this color for charting, to indicate negative values.

Bronze 400 / B68A4C

Bronze brings a touch of elevated warmth, used sparingly to signal achievement, distinction, or moments of importance. It adds a refined glow that feels both grounded and prestigious. The most reserved of our colors, this should only be used in the upmost specific way — conceptual iconography, special moments, invitations, cards, stationary, etc.
